Internship Certificate

This is to certify that Tianhao Li, a student of the School of Information at North China University of Technology, major in Information Security, was an intern from January 1, 2022 to March 10, 2022.

During the internship, he worked diligently and responsibly in the role of C++ Developer. He was humble and eager to learn, making efforts to master the necessary skills for the job. He demonstrated a strong ability to think critically and collaborated effectively with supervisors and colleagues. He successfully applied the knowledge acquired during his studies to practical work tasks, ensuring the completion of assignments with high quality and efficiency.

This certificate serves as an evaluation of the intern's overall performance during the internship, and it is provided for reference by educational institutions and future employers.
