Mentor's Comment:

Tianhao Li is able to take the initiative to undertake the work and finally achieve.the work goal. During the internship, he supported the algorithm research and prototype system development of the NSFOCUS LLM Security Assessment System (LSAS), and continued to track cutting-edge research in academia and industry, and also participated in the writing of technical white papers, which provided important practical experience and results for the accumulation of knowledge in the relevant field and technical research. In the company, he gets along well with his colleagues and cooperates with them smoothly. Overall, Tianhao has a strong sense of responsibility, works conscientiously and responsibly, thinks and expresses himself logically, and has performed well during his internship.
